

CUSTOMER INSIGHTS & RECOMMENDATION PROJECT

Business Insights Report

Dataset: Customer Shopping Data

Records: 99,457

Period: 2021–2023

Tool: Power BI

1. Executive Summary

This report presents a comprehensive analysis of customer shopping behavior, sales performance, product trends, and regional revenue across multiple shopping malls. The analysis covers **99,457 transactions** spanning 2021 to 2023, generating a total revenue of **Rs. 62.44 Million**. Key findings highlight strong performance in the Clothing category, dominance of Cash as a payment method, and the superiority of In-Store sales channels. Five actionable business recommendations are provided to improve customer retention and increase revenue.

2. Key Performance Indicators (KPIs)

Total Sales	Total Customers	Total Orders	Avg Order Value
Rs. 62.44M	99,457	99,457	Rs. 628

Observation: The average order value of Rs. 628 indicates moderate spending per transaction. With 99,457 unique orders, the business has a strong transaction volume. There is significant opportunity to increase average order value through upselling strategies.

3. Sales Performance Analysis

3.1 Monthly Sales Trend

Month	Total Sales (Rs.)	Month	Total Sales (Rs.)
January	72,12,248	July	50,61,405
February	65,98,765	August	48,14,109
March	54,73,831	September	46,50,201
April	46,45,193	October	50,48,780
May	48,79,586	November	45,43,974
June	47,00,931	December	48,15,288

Key Insight: January recorded the highest sales (Rs. 72.1L), nearly 59% higher than November (the lowest month). Sales dropped significantly from March onwards, suggesting a strong Q1 seasonal effect. A targeted marketing campaign from April to November could help stabilize revenue.

3.2 Sales by Shopping Mall

Shopping Mall	Total Sales (Rs.)	Share %
Mall of Istanbul	1,26,06,914	20.2%
Kanyon	1,24,75,689	20.0%

Metrocity	93,43,842	15.0%
Metropol AVM	63,23,236	10.1%
Istinye Park	61,23,370	9.8%
Others (5 malls)	93,71,261	15.0%

Key Insight: Mall of Istanbul and Kanyon together contribute 40.2% of total revenue. These two malls are the primary revenue drivers and should receive priority investment in marketing and inventory.

4. Product Performance Analysis

Top 5 Products by Sales		Sales by Category	
Blouse	29,11,061	Clothing	2,83,09,502
T-Shirt	28,78,773	Shoes	1,65,07,821
Sweater	28,55,021	Technology	1,43,83,268
Dress	28,54,526	Cosmetics	16,79,267
Skirt	28,51,990	Toys	9,87,997
		Food & Beverage	2,10,760

Key Insight: Clothing dominates with 45.3% of total sales. Top 5 products are all clothing items with very similar sales figures, suggesting balanced demand. Technology is the 3rd largest category but has higher unit prices — an upsell opportunity exists here.

5. Customer Analysis

Segment	Total Sales (Rs.)	Share %	Payment Method	Total Sales (Rs.)	Share %
Adult	1,83,92,522	29.5%	Cash	2,79,47,847	44.8%
Middle Age	1,78,36,028	28.6%	Credit Card	2,19,33,420	35.1%
Young Adult	1,19,41,283	19.1%	Debit Card	1,25,63,045	20.1%
Youth	83,51,902	13.4%			
Senior	59,22,577	9.5%			

Key Insight: Adults and Middle Age customers together contribute 58.1% of total revenue, making them the most valuable segments. Cash is the most preferred payment method (44.8%), suggesting many customers prefer physical payment — digital payment incentives could shift this.

6. Sales Channel Analysis

Sales Channel	Total Sales (Rs.)	Share %
In-Store	3,09,88,810	49.6%
Online	2,09,25,473	33.5%
App	1,05,30,030	16.9%

Key Insight: In-Store contributes nearly 50% of sales. However, Online + App combined make up 50.4%, meaning digital channels have overtaken physical stores collectively. Investing in app improvements and online marketing could significantly grow digital revenue.

7. Key Business Insights

- January Effect:** January alone contributed Rs. 72.1L — the highest monthly sales. A seasonal promotion strategy in Jan could push this even higher.
- Clothing Dominance:** Clothing category drives 45.3% of total revenue. Inventory and marketing investment should be prioritized here.
- Top 2 Malls Rule:** Mall of Istanbul and Kanyon together generate 40% of all sales. These locations need sustained focus and exclusive campaigns.
- Cash Preference:** 44.8% of customers pay in cash. Introducing cashback offers or discounts on digital payments could modernize payment behavior.
- Adult Segment Value:** Adults (29.5%) and Middle Age (28.6%) are the top spenders. Loyalty programs targeting these groups will maximize ROI.
- App Underperformance:** The App channel contributes only 16.9% of sales despite its potential. A better UX and app-exclusive deals can grow this significantly.

8. Business Recommendations

- Launch Seasonal Campaigns (Q2–Q4)**
Sales drop sharply after January. Introduce quarterly promotional events, festive discounts, and flash sales from April to December to stabilize revenue throughout the year.
- Invest in App & Online Channel**
Digital channels (Online + App) now account for 50.4% of sales combined. Improve app experience, offer app-exclusive discounts, and run targeted digital ads to capture more online buyers.
- Reward Top Customer Segments**
Adults and Middle Age customers generate 58% of revenue. Launch a tiered loyalty program with exclusive rewards for repeat purchases to improve retention and lifetime value.
- Expand Clothing & Technology Lines**
Clothing (45.3%) and Technology (23.0%) dominate sales. Expanding product variety and stocking premium brands in these categories will directly increase average order value.
- Incentivize Digital Payments**
Cash payments (44.8%) limit data collection and increase operational costs. Introduce 2-5% cashback on Credit/Debit card and App payments to shift behaviour toward digital methods.
